

1998 EDITORIAL INDEX

Business/Economy

1999 Construction market: the best of times, Dec.	50
Are you paying too much for insurance, Sept.	32N
A breed of their own, Mar.	52
Empowered workers like a fine-tuned machine, April	90
Family-owned companies in a consolidation-hungry industry, Feb.	26
Fitting together pieces of the acquisition puzzle, Mar.	46
Industry wages improving with the economy, Mar.	54
A mineral conundrum, May	48
The paths vary, but heirs to family-owned companies have similar start and finish, Aug.	52
Power providers square off, Mar.	41
TEA-21 cases uncertainties about the economy, Dec.	57
TEA-21: a sweet deal for the aggregates industry, July	30
Who owns whom?, Feb.	28

Conveyors

Buckets reduce replacement cost, downtime, Mar.	58
Correct conveyor belt tracking, April	52
Proper maintenance and installation provides most bang for the buck, June	27
Six steps to choosing a better belt, April	43

Crushers

Construction firms good source for used plants, Oct.	66
Contract crushers: a directory, Nov.	24
Determine equipment payback from your crusher, Sept.	36
Using a hydraulic hammer as a primary breaker, Mar.	158
Vertical shaft impactors: understanding your options, Jan.	29
Weapons of mass reduction: a new generation of cone crushers, Sept.	33

Drilling/Blasting

Going beyond regulations, July	48
Why people complain about blasting, July	40

Environment/Reclamation

Biosolids help revegetate limestone quarry, July	52
Bottom-line benefits of environmental management, Oct.	40
Environmental audits valuable for some, but not all, May	44
Keeping a wary eye on new particulate standards, Oct.	34
Reclamation planning can reduce cost of mining operation, July	64

Front Lines (Guest Commentary)

Asphalt industry must face Superpave challenge, Dec.	12
Balancing resources, economy and performance, Aug.	16
Cooperation can fill training rule void, Nov.	16
Critical time to end training rider is now, July	17
Education needed to meet production demands, May	16

The fortunes of opportunity for another 80 years, April	16
Grassroots effort key to TEA-21 victory, Sept.	16
Workers comp fraud costly but avoidable, June	16
Zen and the art of boneyard maintenance, Oct.	20

Maintenance

Clean brakes, routine checks key to longevity, Jan.	14
Design changes making maintenance easier, Mar.	14
Maintenance education opportunities, July	16
Optimizing an MRO distributor can trim costs, April	14
Preventing cooling-system problems, June	14
Proper oil and wear analysis solves problems, May	14
Restore and extend battery life, Aug.	14
Retaining air pressure prevents early tire failure, Oct.	18

Marketing/Specifications

Aggregates key to high-performing pavements, April	48
A key to quality control, Aug.	57
Market for stone is bird of a different feather, Aug.	48
Marketing ideas more innovative in going for the gold, May	34
Microsurfacing gives pavements extended life, June	58
New materials offer opportunities, May	82
The shift to QC/QA hits high gear, May	39
TEA-21 raises stakes in search for fines markets, July	94

Material Handling

Mixing system turns sand and dust waste into product, Mar.	56
Slurry-transport system demonstrates dredge and pump technology, May	52

Mobile Equipment

1998 truck show showcases new components, June	36
Cat's large mining trucks upgraded, offer quarries economies of scale, Dec.	78
Choosing the correct off-road tires, Oct.	44
Giant machines help advance mining technology, Jan.	74
Komatsu wheel loader, haul truck and motor grader target rock products industry, Dec.	83
Putting the freeze on scrap tires, Aug.	78

Motors/Drives

Motor-protection system at work in Cliffe Hill, May	50
The replacement vs. repair dilemma in electric motor operations, May	28
Vector drive smooths vintage tram line operation, Mar.	60

Operations

Brooks Construction—Portable recycling plant covers ground, Aug.	31
Champion Rock Products—The move to portable plants, Aug.	40
Complete Resources—Pit-portable impactor	

handles all crushing at Ohio gravel operation, Feb.	42
---	----

Elmore S&G—Alabama S&G company overhauls operations, Feb.	34
---	----

Global Stone PenRoc—Limestone filler plant opening, Jan.	38
--	----

Lafarge—Running a camel-like operation at Colorado quarry, Oct.	30
---	----

Lone Star Northwest—Plant plans pay off, April	37
--	----

Long Branch Quarry—Yes! you can open a new quarry, Sept.	28
--	----

New Ulm Quartzite Quarry—Market for stone is bird of a different feather, Aug.	48
--	----

Osburn Sand—Buckets reduce replacement cost, downtime, Mar.	58
---	----

Pacific Rock Products—Teaching an old quarry new tricks, Sept.	24
--	----

Rogers Group—Portable support: an edge for recycling arm, Aug.	36
--	----

Southland Waste Systems—Pulverizer solves problem, Sept.	32L
--	-----

Tarmac Roadstone—Motor-protection system at work in Cliffe Hill, May	50
--	----

TXI—Concrete crushing—Creole style, Aug.	44
--	----

United Rock Products—Digging deeper to meet demand, June	24
--	----

U.S. Gypsum—Vector drive smooths vintage tram line operation, Mar.	60
--	----

Vulcan Materials—Going beyond regulations, July	48
---	----

Wasatch Constructors—Olympic efforts in Salt Lake City, Mar.	35
--	----

Recycling

Concrete crushing—Creole style, Aug.	44
--------------------------------------	----

Portable recycling plant covers ground, Aug.	31
--	----

Portable support: an edge for recycling arm, Aug.	36
---	----

Pulverizer solves problem, Sept.	32L
----------------------------------	-----

Telescoping conveyor reduces RAP segregation, Dec.	74
--	----

What to see at the Construction Materials Recycling Seminar, Sept.	32G
--	-----

Safety

Putting MSHA's training-enforcement ban in perspective, Feb.	38
--	----

Systematic investigation can unearth root causes of accidents, Sept.	58
--	----

Superpave

Addressing aggregate industry concerns, Dec.	SP-20
--	-------

Aggregates key to high-performing pavements, April	48
--	----

Equipment solutions to Superpave challenges, Dec.	SP-24
---	-------

Properly filling pavement voids avoids ruts, Dec.	SP-17
---	-------

The shift to QC/QA hits high gear, May	39
--	----

Superpave—the future of hot mix asphalt pavements, June	32
---	----

Speed bumps slow but don't deter Superpave implementation efforts, Dec.	SP-5
---	------
